

Wheel Manufacturing and Automotive Workholding Solutions

Only from **LMC WPG**

WHEEL PRODUCTS GROUP

- LMC is the world leader in workholding for passenger car, light and heavy truck, and bus wheels. LMC wheel chucks can be adapted to most any lathe manufacturer worldwide.
- LMC has teamed with Numtec and MAKRA to bring a complete range of wheel machining solutions including wheel testing, marking and production equipment.
- LMC also offers a complete range of standard and custom workholding equipment for automotive applications. This includes patented face drivers and centers for single operation turning of cam shafts, crank shafts, pinion gears and other drive components.
- Nobody brings this extent of wheel manufacturing and automotive workholding solutions. Plus you get LMC's U.S. engineering and manufacturing along with global customer support, installation and service.
